place interior shelf on top of supports
- 4) Place Counter on top of assembled kiosk.
- 5) Attach Plex Counter to top of kiosk using stand-off Barrels and Caps.

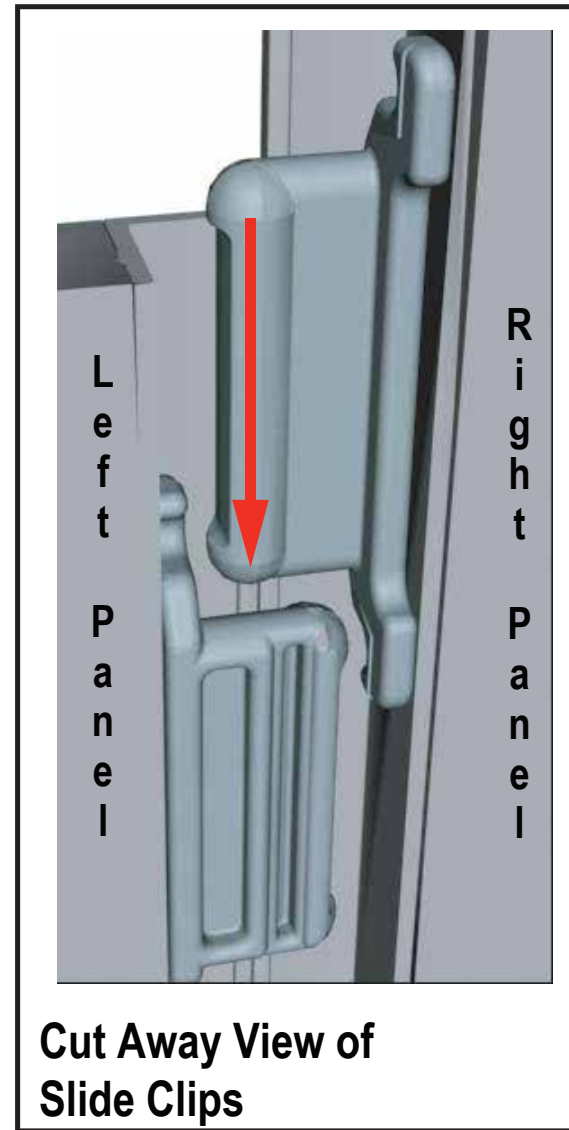

When assembled

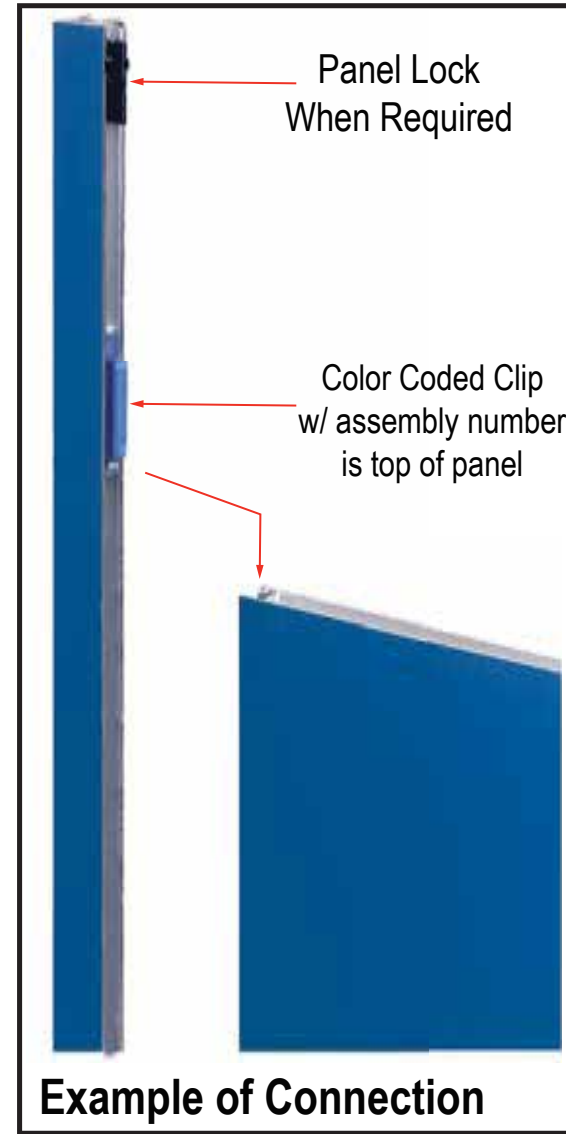

SETUP INSTRUCTIONS

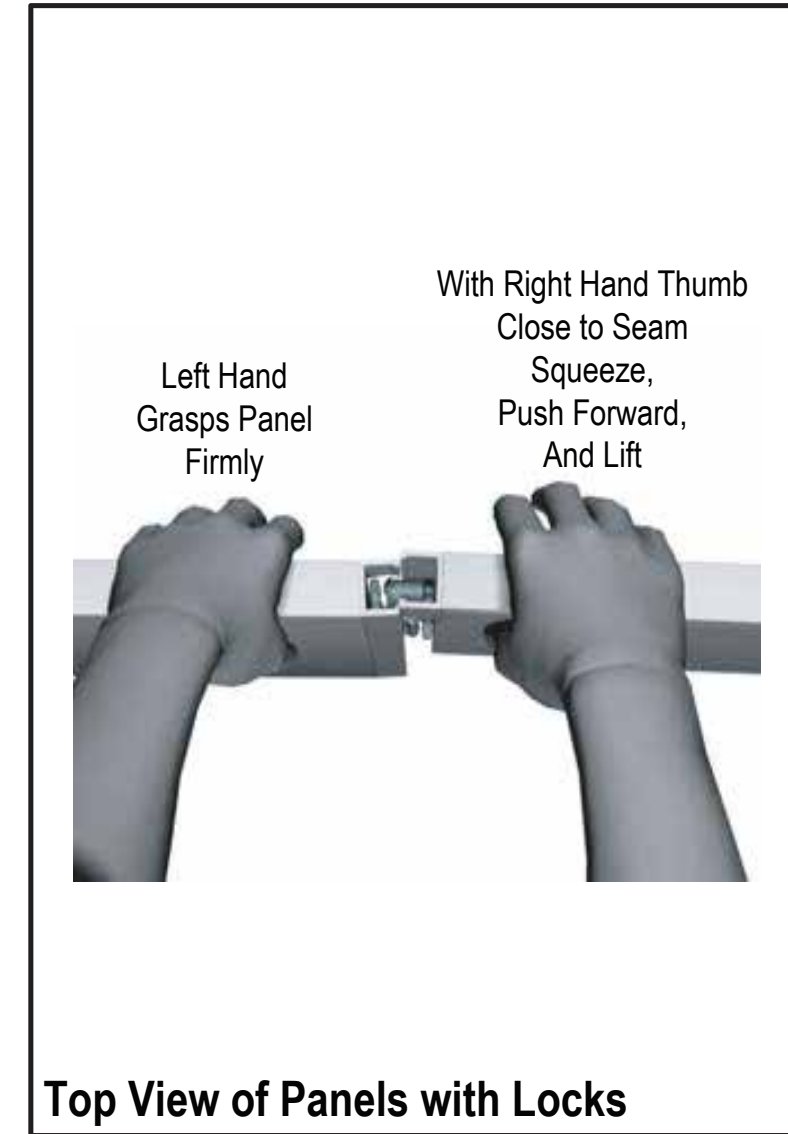

Each component has 2 clips, the lower clip is ALWAYS black. The top clip is color coded to distinguish which level. The color coded clip also contains the numbered label.

Components connect together by aligning them and sliding downward connecting clips together.

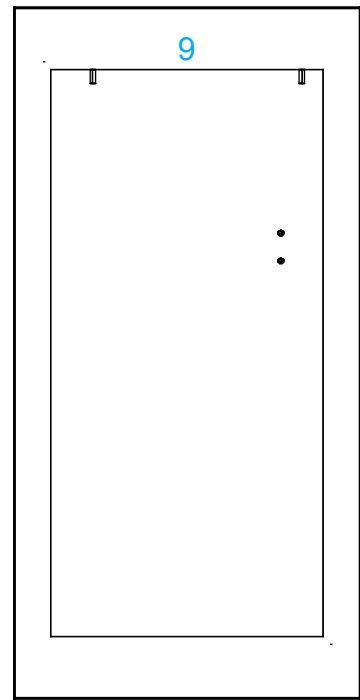

Configurations are assembled from left to right, usually starting with #1 and following the numbered sequence.

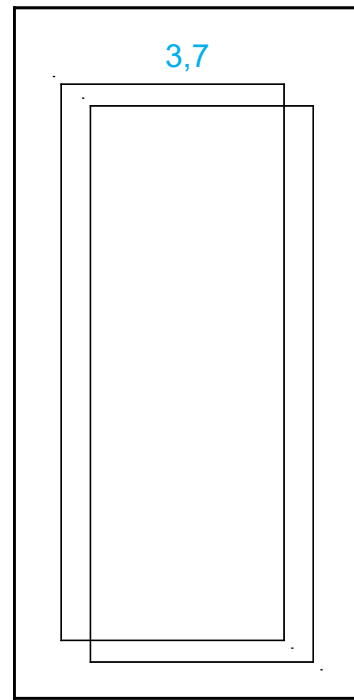

The first level of components contain panel locks that are located at the top of the panel for extra stability and seamless connection. When disassembling panels twist top connection slightly and lift right panel upward.
